We published last night a very important letter with regard to the quality of the B St. Estephe, Red Capsule. 4.50 5.00 | coal taken from the mines of the Compagnie Française des Charbonnages du Tonkin. The writer has evidently taken some trouble to obtain independent epinion, and the result cannot be deemed very favourable to the prospects of the Red Capsule 14 1.25 Company. The coal has, we believe: been tried by neveral local firms—the Gas Company, Sugar Refineries, Tramway Company &c., -also by most of the hoal steamers. More than ever it is incumbent on the directors 12 1.10 of the Company to fulfil this tack, as there is evidently a widespread opinion 8 0.75 that the coal cannot be utilised without great risk and only under exceptional conditions. A million dollars have been sunk in this company's venture, and during the last three years the shares have fluctuated in a most unaccountable manner, being at one time about 500 per cent. premium. It is now time that the true position of affairs should be revealed. We hope, for the sake of the colony and for the sake of the investors, it may turn out that the unfavourable reports are at least somewhat
